Application
Providing performance and reliability, HID’s attractive, unobtrusive ThinLine® II proximity card reader is housed in a two-piece, weatherproof secure potted enclosure.

Features
- Easily installed and maintained with the use of replaceable covers.
- Available with a Wiegand or Clock-and-Data interface.
- Provides high reliability, consistent read range and low power consumption.
- Features include multicolor LED and internal control or host control of the LED and beeper.
- Mounts directly on metal with minimal impact on the read range performance.
- Aesthetic design available in two cover designs and four colors to match any décor.
- Includes multilingual installation manual.
Mounts on a single-gang electrical box for easy installation. Mounts directly on metal with minimal impact on read range performance.

A red LED flashes green and the beeper sounds when reader is presented with a proximity card. The multicolor LED and beeper can also be controlled individually by the host system.

On reader power-up, an internal self-test routine checks and verifies the setup configuration, determines the internal or external control of the LED and beeper and initializes reader operation. An additional external loop-back test allows for the reader outputs and inputs to be verified without the use of additional test equipment.

Sealed in a rugged, weatherized polycarbonate enclosure designed to withstand harsh environments, providing reliable performance and a high degree of vandal resistance.

Wiegand output model interfaces with all existing Wiegand protocol access control systems. Clock-and-Data (magnetic stripe) model interfaces with most systems that accept magnetic stripe readers.

Recognizes card formats up to 85 bits, with over 137 billion unique codes.

Lifetime warranty against defects in materials and workmanship (see complete sales policy for details).

Features

**Mounting**
Mounts on a single-gang electrical box for easy installation. Mounts directly on metal with minimal impact on read range performance.

**Audiovisual Indication**
A red LED flashes green and the beeper sounds when reader is presented with a proximity card. The multicolor LED and beeper can also be controlled individually by the host system.

**Diagnostics**
On reader power-up, an internal self-test routine checks and verifies the setup configuration, determines the internal or external control of the LED and beeper and initializes reader operation. An additional external loop-back test allows for the reader outputs and inputs to be verified without the use of additional test equipment.

**Indoor/outdoor Design**
Sealed in a rugged, weatherized polycarbonate enclosure designed to withstand harsh environments, providing reliable performance and a high degree of vandal resistance.

**Easily Interface**
Wiegand output model interfaces with all existing Wiegand protocol access control systems. Clock-and-Data (magnetic stripe) model interfaces with most systems that accept magnetic stripe readers.

**Security**
Recognizes card formats up to 85 bits, with over 137 billion unique codes.

**Warranty**
Lifetime warranty against defects in materials and workmanship (see complete sales policy for details).

**Part Numbers**
Base Part No.: 5395 Wiegand interface
Base Part No.: 5398 Clock-and-Data interface

**Options**
- CLASSIC series cover in white, beige, charcoal gray or black (or)
- Designer series cover in white, wave blue, charcoal gray or black
- LED and beeper operation

(Please see “How to Order Guide” for a description of the options and associated part numbers.)

**Specifications**

**Typical Maximum Read Range**
- ProxCard II card - up to 5.5” (14 cm)
- ISOProx II card - up to 5” (12.7 cm)
- DuoProx II card - up to 5” (12.7 cm)
- Smart ISO/DuoProx cards - up to 5” (12.7 cm)
- Proximity & MIFARE card - up to 5” (12.7 cm)
- ProxCard Plus card - up to 1.5” (3.8 cm)
- ProxKey II keyfob - up to 2” (5.1 cm)
- MicroProx Tag - up to 3” (7.6 cm)
- Depending on local installation conditions.

**Dimensions**
4.70” x 3.00” x 0.68”
(11.9 x 7.6 x 1.7 cm)

**Material:** Polycarbonate UL 94

**Power supply:** 5-16 VDC
Linear power supplies are recommended.

**Current requirements:**
- Average: 30 mA (5 VDC); 20 mA (12 VDC)
- Peak: 110 mA (5 VDC); 115 mA (12 VDC)

**Operating temperature:**
- -22° to 150° F (-30° to 65° C)

**Operating humidity:**
- 0-95% relative humidity non-condensing

**Weight:**
3.3 oz. (94 gm)

**Transmit frequency:**
125 kHz

**Excite frequency:**
125 kHz

**Cable distance:**
- Wiegand interface: 500 feet (150 m)
- Clock-and-data interface: 50 feet (15 m)

Recommended cable is ALPHA 1295 (22 AWG) 5 conductor minimum stranded with overall shield or equivalent. Additional conductors may be required for LED or beeper control.

**Environmental:**
- IP55

**Certifications:**
UL294/cUL (US), FCC Certification (US), IC (Canada), CE (EU), C-tick (Australia, New Zealand), SRR (China), MIC (Korea), NCC (Taiwan), MIC (Japan), iDA (Singapore), RoHS

About Barcodes Inc

Who We Are
Barcodes Inc is North America's leading provider of specialized digital data hardware and software solutions. Our products include barcode scanners, mobile computing devices, identification card equipment, point-of-sale systems, barcode label and receipt printers, and consumables, all of which help customers improve productivity and profitability. Our product and solution experts have been serving both small businesses and large enterprises since 1994.

We Owe Our Success To You
It’s true that data tracking is our expertise - but customer satisfaction is our true passion. We have one overriding objective: focus on you, the customer. We understand that each customer’s need is unique. That’s why we listen carefully and tailor our solutions to meet your needs. We appreciate the opportunity to serve you and strive to exceed your expectations!

Why Choose Barcodes Inc?

Dedicated Account Manager
Our Account Managers will not compromise when it comes to providing you top-notch service. Your Account Manager is the primary point of contact for your business and makes it a priority to get to know you, your company and all your needs.

Highly-Trained Technical Support
Our technical staff has the broadest knowledge and every significant certification in the industry. One of our friendly experts is always available to suggest products and solutions for any situation.

Incredible Value
Our purchasing power means big savings for you. Whatever your project, our team will work hard to deliver a solution that fits your budget.

Largest Inventory in the Industry and Same-Day Shipping
Whatever your barcoding, mobile computing, or printing needs, we will fill your order and ship it the same day.

Premier Access to Top Manufacturers
Barcodes Inc maintains strong strategic partnerships with the leading manufacturers in barcoding, mobile computing, printing and RFID.

Responsive Customer Service
Every phone call and email is responded to promptly, completely and accurately by our customer service team.

Easy Returns
Damaged, defective or incorrectly ordered goods may be returned without hassle.
