Professional. Reliable. Secure.

4 yr. Warranty INCLUDED

AUTHENTYS

PRO 300 ID Card Printer

The most popular mid-volume ID card printer, the Authentys PRO 300 makes it easy to batch print cards and protect your data. Backed by an industry-leading service and support team, the Authentys PRO series printers will provide high quality badges with high level security features.

AVAILABLE OPTIONS:

Dual-sided Printing

Magnetic Stripe Encoding

RELIABLE & EASY TO USE:

- Single or dual-sided dye sub printing
- Full color, monochrome, and thermal rewritable
- Batch printing & manual feed mode
- Custom watermark technology
- Industry-leading 4-year warranty
- TrueSupport service options

Flexible & Secure Card Printing

Along with a larger 70-card output hoper and faster print speeds, the new PRO 300 printer includes important security upgrades to keep your data safe. With built-in Digital Shredding, the PRO 300 will fragment the print job data sent to your printer to make in irrecoverable and prevent unauthorized users from accessing your card information.

4 Secure Designs

Custom Watermark Technology

For maximum security and professionalism, the built-in technology adds a hologram-like watermark over your printed card without any additional supplies. This added layer of visual security makes cards harder to tamper with or duplicate. The PRO 300 printer includes one free Custom watermark design securely programmed with your logo or artwork (a $598 savings) as well as four standard designs.
