Running a better warehouse starts with you, but it doesn't end there. Barcodes, Inc. partners with tech's biggest names, transforming your plant into a state-of-the-art, centralized hub, where up-to-code products flow to the market with ease, accuracy, and convenience.

Achieve amplified productivity with top-of-the-line tech

Transform your warehouse with tools that boost efficiency, customer loyalty, and profits

Barcodes: A Fully Managed Turnkey Solution

Power your warehouse well with tools designed to exceed every expectation

Experience Barcodes EDGE

- Receive with ease—ensure inventory accuracy with versatile mobile computers and RFID technology
- Avoid mis-shipments—save time and improve customer satisfaction with devices that scan and verify items as they're packed to ensure on-time, accurate delivery
- Accelerate the return process—optimize the value of returned items and reduce revenue loss
- Easily verify inventory levels—leverage robots and wearable technology to quickly track inventory, reduce waste, and improve accuracy in the reordering process
- Keep an eye on every asset—utilize RFID technology and smart lockers to increase mobile device visibility and prevent lost or stolen assets
- Ensure interconnectivity—integrate all apps and devices on the same, secure wireless network
- Monitor plant activity—use high-definition security cameras to prevent theft and track high-value assets
- Enhance forklift productivity—Leverage long-range scanning to synch inventory on the go with durable, time-saving, forklift-mounted computers
