Barcodes

Master field service management

Equip your service technicians with top-of the line tech

Your customers expect nothing less than uninterrupted service, which makes working with properly equipped field technicians critical for market success. Barcodes, Inc. simplifies field management with applications that make work orders, not just easier to complete, but easier to monitor from start to finish, and even after the job's done. Empower your field service techs with tools designed to elevate operations from the plant to the field, and the many miles in between.
Keep clients up and running

- Ramp up asset visibility with RFID tracking
- Streamline inventory management with wearable devices
- Troubleshoot remotely with augmented reality tech

- Track drivers with GPS-enabled solutions
