AlphaCard Visitor Pass Entry Edition

Check visitors in or out, manage visitor records, and print badges

Visitor Management Software

AlphaCard's newest software, AlphaCard Visitor Pass, helps businesses and organizations quickly and easily set up visitor accounts, check visitors in and out, and track visitor actions.

This will help you manage visitors in secure office buildings, at restricted work sites, in schools, at conference and events, and more.

Entry Edition Features

AlphaCard Visitor Pass Entry edition is designed for small organizations looking for an easy and efficient way to check visitors in and out and store visitor records.

The Entry edition includes a built-in database that holds unlimited records, and five pre-designed visitor badge templates – or you can design your own! Badge designs can be single or dual-sided and include 1D barcodes, magnetic stripes, and visitor photos.

SYSTEM REQUIREMENTS: 32 or 64 bit Microsoft Windows operating system (Windows 7, 8, 10), Explorer 6 or higher, Microsoft .NET framework 4.6, dual core processor, 1 GB of free internal memory (32 bit) or 2 GB internal memory (64 bit), 200 MB of free disk space, internet connection.

Highlights

- Easily create visitor records to check visitors in or out
- Built-in visitor database holds unlimited records
- Blacklist visitors for increased security
- Built-in evacuation report
- Design & print single or dual-sided visitor badges
- Built-in DirectShow webcam support & image editing tools
- Compatible with Windows 7, 8, 10 operating systems
- Easy upgrades to another edition for advanced features
