Comprehensive Solutions for Tableside Service

Waiter In-a-Box | Maitre'D Edition can help you streamline hospitality operations, whether it is needed for running a bar, a dining room, or a take-out counter. This flexible point of sale and back office solution comes pre-configured and ready to manage every aspect of the restaurant business. Maitre'D software combined with the reliability from PartnerTech's all-in-one system provides control from the store level to corporate head office. Features of this innovative solution include:

- Flexible options for customer check or item splitting
- Built-in redundancy to prevent down time
- "On the Fly" modifiers allowing wait staff to enter any customer specific demands
- Order Hold and Fire capability
- Speed of service reports to help measure the staff performance
- Real-time offsite reporting

You can count on superior POS reliability and state-of-the-art technologies with this all-in-one Maitre'D solution.

Waiter In-a-Box | Maitre'D Edition is available exclusively at BlueStar!
