MS-15 Medical/Veterinary Scale

Features

The MS-15 scale is particularly suited to the medical or veterinary industry. With a capacity of 20 kg / 44 lb and readability of 5 g / 0.005 lb, the MS-15 will accurately weigh infants or small animals.

The scale has a "HOLD" feature that will capture an unstable weight and keep it on the display for recording after the weight is taken off.

The LCD display has blue backlight. Standard features kg and lb with a hold feature. Operates on four AA batteries (not included).

Easy-to-clean plastic weighing platter.
