

# HL-S7000DN

## Professional High-Speed Workgroup Printer

*The Reliable Solution to the Demands  
of High Volume Print Environments*

**brother**<sup>®</sup>  
at your side

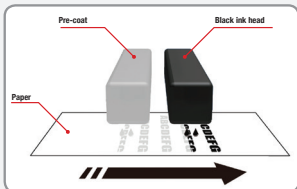

# The revolution begins now.

## Introducing the HL-S7000DN high-speed workgroup printer from Brother.

Finally, there's an office workgroup printer that stands in a class of its own – delivering astonishingly fast output speeds with very low operating costs. Most impressively, it does this all while using significantly less energy when compared to conventional office laser printers.

### Breakthrough Print Technology

Printing at up to 100 pages per minute, the HL-S7000DN delivers a massive productivity increase, allowing your workgroup to print faster than ever before.

Its Cold Process Print System and Page Wide Smart Array™ print technology make the HL-S7000DN the world's first

high-speed printer in its class that can reliably produce high-quality output faster and more efficiently than other workgroup printers on the market today.

It does this while being incredibly energy-efficient with up to 66% lower power consumption than conventional office laser printers. This means that it can help increase office productivity, reduce your company's carbon footprint, and help reduce your office expenses with its ultra-low running costs.

The HL-S7000DN not only saves you money, but also helps keep your office green.

### HL-S7000DNXL

Shown with all available options\*

500-sheet capacity output stacker

High capacity 30,000 page ink cartridge

100-sheet capacity multi-purpose tray for printing on thicker media

Adjustable, 500-sheet capacity paper tray

Up to 2,100 sheet maximum input capacity via 3 additional, optional 500-sheet paper trays

Built in automatic 2-sided printing with booklet feature

Enterprise level security

2GB internal storage

Stabilizer

## Features and Benefits of the HL-S7000DN Professional, High-Speed Workgroup Printer:

### 1. Super Fast Printing

Help increase office productivity with a black print speed up to 100ppm

### 2. Automatic Duplex Printing

Create two-sided documents and help save paper with automatic duplex printing

### 3. High-Quality Output

Print professional output at up to 600 x 600 dpi

### 4. High-Yield Replacement Cartridge\*

Help lower your operating costs with a high-yield 30,000-page<sup>▼</sup> replacement ink cartridge

### 5. Low Operating Costs

High-efficiency print engine with very low power consumption

### 6. Expandable Paper Handling

Adjustable, 500-sheet capacity paper tray, plus a 100-sheet capacity multi-purpose tray. Expandable up to 2,100 sheets total by adding up to 3 optional 500-sheet paper trays\*

### 7. Backlit LCD Display

Easy navigation and menu selection via backlit LCD display

### 8. Customer Support

1-year limited on-site warranty with free phone support for the life of your product

## A Variety of Configurations Available...

The base model HL-S7000DN can be configured with a variety of optional accessories. Or, choose from a range of pre-configured printers with the options already included. No matter what the requirement, the HL-S7000DN can easily expand to meet your workgroup's needs.

#### HL-S7000DN

##### Base model:

- up to 600-sheet input
- up to 500-sheet output

#### HL-S7000DNT

##### Base model plus:

- 1 additional tray

#### HL-S7000DNX

##### Base model plus:

- 2 additional trays
- up to 1,600 sheet input
- Stabilizer

#### HL-S7000DNS

##### Base model plus:

- 2 additional trays
- up to 1,600 sheet input
- up to 1,000 sheet output
- Stacker
- Stabilizer

#### HL-S7000DNXL

##### Base model plus:

- 3 additional trays
- up to 2,100 sheet input
- up to 1,000 sheet output
- Stacker
- Stabilizer

## HL-S7000DN Professional High-Speed Workgroup Printer

The HL-S7000DN is a breakthrough printer for high-speed office printing. Delivering ultra-fast print speeds and low running costs, it allows your workgroup to respond to peak printing demands with ease. Incredibly energy-efficient, the HL-S7000DN is a powerful output solution that can adapt and grow as your workgroup printing needs change.

Additionally, organizations seeking to further manage their output costs can consider adding the HL-S7000DN as part of a balanced deployment printing strategy. Installing this high-speed printer with other award-winning Brother products allows you to consolidate many other document distribution functions into a centrally-located document workgroup solution. The result provides your organization with wider access to additional capabilities while at the same time reducing the size of your equipment fleet and its related expenses.

### Specifications:

<b>Carton Weight</b>	114.6 lbs.

### Enterprise Level Management / Networking / Security

#### Device Management Utility

- Use BRAdmin Professional to remotely monitor and configure a fleet of devices across multiple locations. Remotely diagnose user issues, setup automatic email and solve potential problems before they impact productivity.

#### Web Based Management

- Manage and configure a single device by creating a direct connection through a standard web browser.

#### Central Deployment

- Deployable printer drivers that can be distributed and then automatically installed to multiple computers from one central location.

#### Built-in Networking

- Gigabit Ethernet or wireless 802.11b/g/n interfaces enable multiple users to send large complex print jobs over the network simultaneously without compromising on performance.

#### Enterprise Level Security

- Includes support for IPSec, 802.1x Authentication (Wired/ Wireless) SSL and Secure Function Lock
