\* Requires PC with monitor (both not included), and a USB cable (included with PT-2110, additional purchase required for PT-2100). Other labeled items shown, not included.

### PC-Connectable\*

Connect to your PC and explore the world of possibilities. Import your company logo, access symbol libraries, use any TrueType® font. You can personalize everything quickly and easily!

Choose from hundreds of unique symbols and clip art options! Import graphics and logos from your PC into your custom labels! It's all possible with the P-Touch® Editor software inside!

# PT-2100

## The right choice for today's office at home or office at work.

The PT-2100 is a perfect fit for the way you work now and in the future. It's a great portable label maker for on-the-move labeling anytime, anywhere. It works and looks great on your desktop, too, with its typewriter-style keyboard and built-in features. And when you connect\* it to your PC, you have a full-featured computer label printer capable of creating almost any label you can imagine, up to 3/4" wide.

## As a stand-alone labeler ...

Use it anytime, anywhere with no PC required.

It's easy to make terrific looking labels wherever you need them. Built-in label templates for your most common labeling tasks guide you every step of the way. Select from a wide variety of optional\* tapes to quickly produce great-looking labels from 9/64" wide (perfect for labeling your CD/DVD spines) up to 3/4" wide (ideal for labeling your file folders) with up to 5 lines of text. Choose any of four fonts and 10 type styles, in up to seven different type sizes ... over 250 type combinations are possible.

That's a lot of versatility in a portable desktop labeler. But there's more – your labeler also offers up to nine built-in bar code symbologies plus 92 built-in symbols you can include on your labels to make them even more informational and eye-catching.

And all this is possible without connecting your labeler to a PC. So what's possible when you do connect it?

### BUILT-IN TEMPLATES

### 4 FONTS

Helsinki

## The *Versatile, PC-Connectable\** labeler for your home or office.

2

## Connect it to a PC\* ...

You can make even more amazing customized labels.

When your labeler is connected via USB\* to your PC, it becomes a full-featured computer label printer. Now almost anything you can view on your PC's screen you can print on a label.

The included P-touch® label-creation software allows you to:

- Use any TrueType® fonts from your PC
- Add graphics, logos, even pictures from your PC
- Select from up to 17 bar-code symbologies to include on your label
- You can also print labels directly from your Microsoft® Word®, Excel®, and Outlook® programs\*

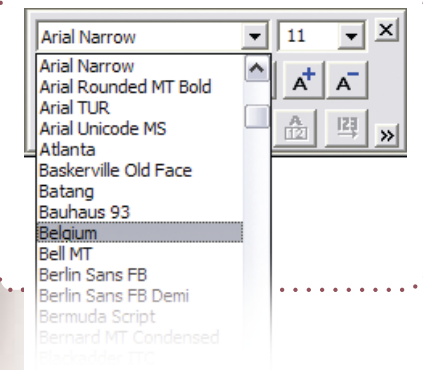

In addition, P-touch® Editor offers templates for an even wider variety of labeling tasks, plus hundreds of extra symbols and clip art for your labels.

### PRINT FROM WORD®, EXCEL®, & OUTLOOK®\*

\* Word – 97/98/2000/2002/2003; Outlook – 2000/2002/2003; Excel – 97/2000/2002/2003.  
\* Requires a USB cable (included with PT-2110, additional purchase required for PT-2100).

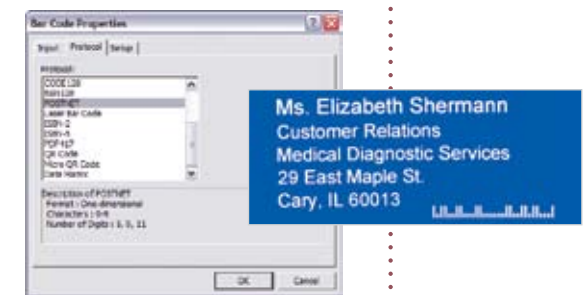

### USE ANY TRUETYPE® FONTS

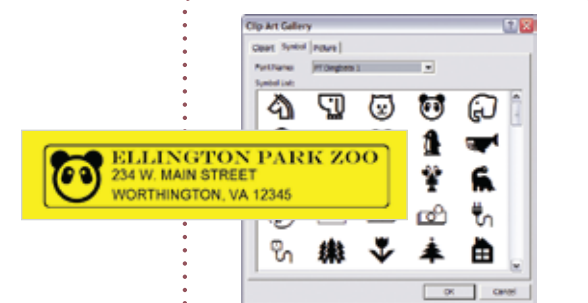

### IMPORT IMAGES LIKE LOGOS

### 17 BAR CODES

### CLIPART / SYMBOL LIBRARY

(Not all shown)

*It's actually two labelers in one ...*

**This is the labeler you've been waiting for – great features in a stylish design that compliments wherever you work.**

# PT-2110

PT-2110 includes a protective carry case which is convenient for transport. It comes ready to connect with a USB cable. Like the PT-2100, it also includes an AC Adapter, Black on White starter TZ tape, and label editing software.
