# A799

## Single-Station Direct Thermal Printer

### Top-of-Class Print Speed

Expect ultra-fast transaction times and greater customer satisfaction with print speeds up to 250 mm/sec.

### Rugged and Reliable Design

Full steel modular frame built around our legendary rugged print mechanism. The steel frame adds strength and stability, extending component life. Combined with CognitiveTPG's exclusive, self-sharpening ceramic knife, the A799 offers the industry's best combination of printhead and autocutter reliability.

### Versatile Modular Configuration

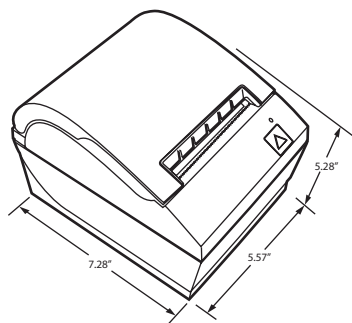

The modular design of the A799 allows for flexible manufacturing systems, enabling us to offer faster delivery and the best price/performance value in POS printers. The A799 is also backwards-compatible with earlier models and many competitive printers.

### Ease of Use and Versatility

The A799 offers monochrome and two-color printing, a small footprint, easy paper loading, and sizeable flash memory for stored logos, graphics, and barcodes. The installation CD gives the choice of easy and fast basic installation or sophisticated custom installation options.

### Increased Spill Resistance

The A799 was designed to withstand actual POS environments. It features a liquid dam and unique drainage features for uninterrupted printing.

Meets strict European standards, such as RoHS & WEEE compliance for non-toxicity of components and recyclability.
