of the reading area, making targeting codes

quick and easy. Datalogic's patented 'Green

Spot' technology provides additional visual

good-read confirmation which is ideal for

quiet environments like bedside patient care.

Remote Host Management software provide

simple tools to manage deployed devices and

keep them synchronized across an enterprise.

Datalogic Aladdin[™] configuration software and

2D imagers eliminate the irritating 'flicker

for comfortable all-day usage. The highly

GENERAL PURPOSE HANDHELD AREA IMAGER BAR CODE READERS FOR THE HEALTHCARE INDUSTRY

The key mission of scanners in the healthcare industry is to improve the quality of patient care while reducing medication errors. Additionally, healthcare environments have requirements that scanners need to be regularly cleaned and disinfected. The Datalogic Gryphon[™] HC product series is specifically developed for healthcare applications with Disinfectant-Ready enclosures treated with anti-microbial additives and are designed to withstand daily cleaning with harsh disinfectant solutions.

The Gryphon[™] 4400-HC 2D readers can decode virtually any 1D and 2D bar code symbology and can read codes from LCD monitors, cell phones, smartphones and other mobile devices. Enhanced optics offer improved motion tolerance and high speed imaging to read fast moving codes as well as the ability to capture images such as signatures, complete IDs or prescriptions.

Ideally suited for stationary applications in administration, laboratory and hospital environments, the GD4400-HC 2D desktop model offers an affordable corded solution, while the GM4400-HC 2D or GBT4400-HC 2D cordless models (STAR or Bluetooth[®]) provide extended mobility for cordless operations.

Unique to the Gryphon 4400 series is Datalogic's exclusive Motionix[™] motion-sensing technology which intuitively synchronizes the scanner with the user's actions allowing seamless transitions between handheld and hands-free style reading. When the device is in your hand, it's in handheld mode; when the device is still, it's in presentation mode. It's that simple.

MEDITECH

ALL PRODUCTS

- Disinfectant-Ready enclosures treated with anti-microbial additives (ISO22196 and JISZ 2801 compliant models available)
- Motionix[™] motion-sensing technology for seamless reading mode transitions
- Omnidirectional reading of 1D, 2D and postal codes plus stacked and composite codes
- Extremely snappy reading performance
- Extended reading distances
- Advanced motion tolerance optics
- Highly visible 4-Dot aimer with center cross for targeted scanning
- Image capture and document scanning capabilities
- Datalogic's patented 'Green Spot' technology for good-read feedback
- USB Certified Kits Available

CORDLESS PRODUCTS

- Two choices: STAR 433 / 910 MHz or Bluetooth[®] wireless technology
- Batch Mode capability: >1200 codes stored in memory
- Point-to-point / Point-to-multipoint transmission
- Datalogic's unique patented 2-position cradle with 'Scan-While-Charging' capability
- Long lasting user-replaceable Lithium-lon battery

DATALOGIC ADC'S DISINFECTANT-READY ENCLOSURES **FOR HEALTHCARE**

Datalogic ADC offers bar code readers designed specifically for the healthcare industry with Disinfectant-Ready enclosures treated with anti-microbial additives that can help fight against the spreading of germs. This is particularly important if the scanner is traveling room-to-room on a medication cart with a nurse. The Disinfectant-Ready enclosures can withstand daily cleaning with harsh chemical cleaning solutions commonly used in a healthcare environment.
