

Professional Security ETV Lite Series

Benefits & Features

- 4 and 16 Channel systems
- Smart Search
- IP Camera Interface
- AZTECH MPEG4 Video Codec with Digital Noise Filter
- Remote Monitoring
- People Count
- 2 Way Chat/Audio
- V-POS-Advanced Point of Sale

The ETV Lite of DVR's from EL-USA provides professional quality, high reliability and an unmatched set of features. The ETV family includes PTZ camera control, system health monitoring, e-mail notification, network logging and advanced searching capabilities. These advanced features make the ETV not only an excellent network accessible DVR, it's also the best management tool available. The ETV family uses the proprietary AZTECH codec image compression technology, producing one of the smallest file sizes in the industry while maintaining excellent image integrity and quality. With its array of remote capabilities, fast frame rates and easy CD backup, ETV implementation guarantees a very fast return on investment.
