

Finally, there is a DVD recorder that allows you to archive video from ANY digital video device. Gone are the days where highly priced, proprietary recorders are required to archive video. The V-Protect's DigiStorePlus connects to your DVR through the BNC monitor output and features 10-Bit video processing, 24-Bit audio processing and hours of high-quality digital recording. Use the VProtect DigiStorePlus in your next installation – When it counts.
