Price Checker and Interactive Mini-Kiosk

Overview

The Image Kiosk 8560 and 8570 are designed to give customers instant self-access to information they need. Offering a range of functionality including price checking, item information look-up, and loyalty program administration, Image Kiosks give you the ability to assist and communicate with your customers effectively and efficiently – all without requiring them to seek out an employee. In addition, the IK8570's capabilities can be leveraged to provide automated check-in and access control to secure areas.

Designed for ease of use, the Image Kiosk combines omnidirectional barcode scanning, an illuminated cone that highlights the scanning area and simple finger-touch navigation, ensuring intuitive operation even for first-time users – a key factor for the success of any self-service solution.

An industry-standard operating system, centralized remote management capabilities, an integrated suite of programming and application development tools, and the option of wireless connectivity simplify integration and maintenance – reducing your total cost of ownership.

Offering the power and performance of larger, more expensive kiosks, the Image Kiosk takes up less space and comes packed with more standard features than other devices in its class, delivering a full suite of kiosk capabilities in a small and extremely user-friendly package.
