HWPS12UG

Wireless 802.11G

2 USB + 1 Parallel Port

Print Server

PACKAGE CONTENTS:

- One Wireless Print Server
- One CD Software Utility
- Power Adapter
- Easy-to-follow Quick Installation Guide

PC MAGAZINE® EDITORS' CHOICE

Print over the Internet/Intranet to your home or office networked printer!

The Hawking HWPS12UG Wireless 802.11g 2 USB + 1 Parallel port 10/100M Internet Print Server is a powerful and convenient tool to connect your USB and parallel printers to a 10/100M or wireless 802.11b or 802.11g Network. Through its enhanced functionality, the HWPS12UG can support up to three printers at one time (2 USB + 1 Parallel). The Hawking HWPS12UG combined with the Internet Printing Protocol (IPP) lets you easily connect to any printer and print documents by specifying the print server's IP address. With IPP technology, printing over a WAN or the Internet becomes much easier. You can send a print job to a printer in another country just as easily as sending a print job to your home or office printer. IPP eliminates the need for fax communications between offices. Simply print an original document through the HWPS12UG's IPP capabilities and send it from one office to another. The print quality from IPP printing is equal to that of a document printed from your local office. The HWPS12UG will turn your printers into fully functional wireless print stations.

System Requirements:

- Windows 95/98/2000/NT/ME/XP, NetWare, Mac OS X**, UNIX or LINUX
- 10Base-T Ethernet or 100Base-TX Fast Ethernet network
- Parallel Printer and/or USB Printer

* The HWPS12UG is not compatible with multi-function printers.

**Supports Postscript Printers Only for Mac Users

READY, NETWORK & GO!   It's easy to install, it's easy to use!

Step 1 - Connect It!

Connect your printers to the HWPS12UG's printer ports. Connect to an existing network via a wireless LAN or RJ-45 Port. The HWPS12UG uses a 10/100M auto-sensing Ethernet port and is backwards compatible with the 802.11b wireless standard so you don't have to worry about what speed your network is currently using.

Step 2 - Install the Drivers and Utilities

Insert the setup CD into your computers' drive and run the setup program. Configuring your HWPS12UG is easy. You can use the Windows based configuration utility or configure the HWPS12UG via any web browser.

Step 3 - "Add" it!

Simply run the Add Printer wizard and specify that you are printing to a network printer. For Internet printing, enter the printer's URL or IP address.

SPECIFICATIONS:

Interface
· 10/100M RJ-45 x 1 (Auto-MDIX)
· USB 1.1 x 2 + DB-25 x 1 (Parallel Printer Port)
· Supports IEEE 802.11g /b Wireless LAN

Network Protocol Support
· IPX/SPX, TCP/IP, IPP, DHCP, LPR, Raw Printing, Novell NetWare, Windows Server-Based Printing, SMB, NetBEUI, Telnet, and AppleTalk protocols.

Network Operation Systems Support
· Windows 95/98/98SE/ME/2000/NT/XP
· NetWare 3.x and above
· Mac OS X (Supports Postscript Printers Only)
· Unix and Linux

Encryption
· 64/128 Bit WEP

Memory
· 2 MB Flash
· 16 MB SDRAM

Power
· 12V DC, 1A Linear Power Adaptor

Dimensions:
· 40H x 200W x 120D mm

Operating Environment
· Temp: 10~40C
· Humid: 10~90%

Certification
· FCC Class B, C-Tick, CE

WIRELESS NETWORK DIAGRAM:

FEATURES:

10/100Mbps auto-sensing port 802.11b/g Wireless	Allows you to attach the HWPS12UG to a 10Base-T or 100Base-TX wired network or a 802.11b or 802.11g Wireless network without the need for a dedicated PC print server.
Multiple servers and multiple protocols support	Capability to print from anywhere, from any computer and from any application.
Quick and Easy Installation	Includes easy Setup Disk and Quick Installation Guide. Instantly adjust the HWPS12UG's settings to your ideal printing environment.
