KOAMTAC Galaxy Tab Active Sled

The typical business tablet requires diverse features such as water/dust/drop protection, security, flexibility and productivity. The proposed challenge to find a tablet with high performance barcode scanning capability has found a solution.

The Galaxy Tab Active Sled enables the IP54 rated, B2B Tablet for business customer relation management (CRM), supply chain management (SCM), workforce management (WFM), contact center, and point of sale (POS) applications.

KOAMTAC's patented sled design protects the user's investment by providing an easy upgrade option.

The Galaxy Tab Active Sled comes with a 1D laser or 2D imager barcode reader option. The 1D laser barcode solution provides an economical and fast scanning experience for budget conscious projects, and the 2D imager provides a high-end scanning solution that provides generous barcode scanning capability and the ability to scan all major 2D barcodes, such as QR and PDF417 codes. The future of the EMV/MSR/NFC option will provide full transition options with innovative KTSync® data collection and application generation tools.
