Specifications are subject to change without notice.

An 802.11ac router or access point will be needed to achieve 802.11ac performance.

May require a software/firmware update available for download at Linksys.com/support.

* Maximum performance derived from IEEE Standard 802.11 specification. Actual performance can vary, including lower wireless network capacity, data throughput rate, range, and coverage. Performance depends on many factors, conditions, and variables, including distance from the access point, volume of network traffic, building materials and construction, operating system used, mix of wireless products used, interference, and other adverse conditions.
