CASHIERPLUS™ PLATFORM

MMF's CashierPLUS™ Platform turns our most popular drawer into a custom matrix on which to integrate the peripherals that make up your POS system. The carefully thought out design allows for the optimal placement and cable management of the most popular models of receipt printers, terminals, keyboards and pole displays.

Available in 4 standard colors, the platform's polyurethane composite construction is rugged enough to stand up to the daily wear and tear of the POS environment.

Dimensions: 20.5" wide x 22" deep x 2.75" high
