ECD 232ND

ADDRESSABLE SERIAL RS232 INTERFACE CASH DRAWERS

MMF's ECD 232ND (Non Dedicated) Cash Drawer is the most cost effective solution for customers whose needs exceed the capabilities of a dedicated serial drawer. This drawer contains an interface board that allows the user to configure the drawer by means of DIP switches that recognize the appropriate opening character, baud rate, data bits, stop bit and parity. It does include an open/closed detection switch, a 12 volt power supply and Y-cable with 25 pin male and female connectors. The ND Serial Drawer can be ordered as DCE Source or DTE Source (Pin 2 or Pin 3).

The ABS "luffy" Tray has 5 coin/5 bill sections and the two-function plunger lock is standard.

Physical Features:

Dimensions: 18.81" W x 19.75" D x 3.87" H
(Also available 15.18" D)

Colors: Putty, Black, Cool White or Galaxy Gray

Finish: Textured, Hybrid Powder Coat with Stainless Steel Front Panel
