MINI HAWK SERIES

MINI Hawk Series: At a Glance

- · Decode speed and read range: Varies by model
- · X-Mode Decoding Technology
- · Autofocus
- · Optional USB Connectivity

MINI HAWK 3: 3 megapixel resolution imager MINI HAWK HR: High resolution imager MINI HAWK HS: High speed imager

ESP® Easy Setup Program: Single-point software provides quick and easy setup and configuration of all Microscan readers.

EZ Button: This performs reader setup and configuration with no computer required.

Visible Indicators: Include "good read" green flash, LEDs and symbol positioning tool.

Mini Imagers for Direct Part Marks

MINI Hawk imagers pack aggressive direct part mark (DPM) reading algorithms into a miniature imager that is both powerful and easy to use for barcode and 2D track, trace and control applications. Aggressive decoding is ensured through X-Mode technology, which reads damaged or difficult symbols with no configuration or setup required.

With multiple resolutions and high speed configurations available, there is a MINI Hawk imager to solve virtually any challenging application.

Decode Any Symbol

The MINI Hawk consistently reads damaged, distorted or otherwise challenging direct part marks with our patented decode algorithms.

Autofocus

For real time dynamic autofocus, position the symbol at the center of the field of view, and push the EZ button. The MINI Hawk automatically adjusts focal distance and sets internal parameters to optimize the symbol.

Wide Field of View

Read symbols as large as 2" (50.8 mm) square as close as 1" (25.4 mm) with diffractive field illumination and optional right angle mirror.

X-Mode Technology

In addition to the most aggressive decoding available, X-Mode technology provides easy setup and deployment of the MINI Hawk in any application.

Compact and Lightweight

Miniature form factor fits easily in tight spaces, and is lightweight for mounting into robotic applications.

Application Examples

Automotive

- · Dot peen mark on powertrain components
- · Laser marks on automotive electronics components

Medical Devices

· Laser marks on components

Electronics

 Laser markings on printed circuits boards, flex circuits

Semiconductors

· Laser marks on packages and components

ISO CERTIFICATION

Certified ISO 9001:2008 Quality Management System

©2010 Microscan Systems, Inc. SP057B 10/10
Read Range and other performance data is determined using high
quality Grade A symbols per ISO/IEC 15415 and ISO/IEC 15416 in a
25°C environment. For application-specific Read Range results, testing
should be performed with symbols used in the actual application.
Microscan Applications Engineering is available to assist with evaluations. Results may vary depending on symbol quality. Warranty—One
year limited warranty on parts and labor. Free extended 3 year warranty
