TAKE HOLD OF YOUR WORKDAY WITH THE MOTION F5

Take your F5 with you no matter where your work takes you.

DURABILITY MATTERS

Built with high quality materials and an internal framing system, the rugged Motion F5 has been optimized to handle challenging work scenarios in the field. The DataGuard™ accelerometer, shockmounted hard drive and optional SSD drive minimize data loss so when the occasional drop or bump happens, it won't be the end of your work day.

THE RIGHT TOOL FOR THE JOB

The Motion F5 features a built-in camera, a standard Radio Frequency (RFID) reader and a barcode scanner to document and diagnose work day problems. Scan tagged equipment to determine model and specification information and photograph your project before and after to document work. Coordinate numerous subcontractor jobs on site without worry of harsh conditions like

dust, dirt and moisture. The rugged, quick cleaning design of the F5, which is IP54 rated, gives you confidence to do your job in any situation.

ON-THE-GO PRODUCTIVITY

The optional integrated wireless broadband technology offers true mobility and flexibility so you can continuously deliver a high level of quality service. Access route plans, acknowledge schedule changes, update job information and download sales reports. Allow customers to

RFID technology and the optional barcode scanner offer a quick way for customers to learn about products.

pick up an F5 from a central shopping area and shop on their own terms. Customers can scan items, research product information and even place an order in advance so it is ready when they check out.

Easily clean the rugged F5 while working in harsh environments

THE SECURE SOLUTION

The Motion F5 can be easily deployed among different individuals within an organization. For authenticating users, use the biometric fingerprint reader, the barcode scanner or the RFID reader. And the Trusted Platform Module helps protect against inappropriate data transfers. For efficient, secure and reliable data capture and reporting, the F5 is the complete solution.

F5 Product Specifications

Processor/Cache

 Intel® Core™2 Duo Processor Ultra Low Voltage U7500 (2MB of L2 cache, 1.06GHz, 533MHz FSB)

Operating System

Windows® Vista® Business

• Windows XP downgrade option available

Chipset

• Intel® 945GME Express

Display

• 10.4" XGA TFT LCD (1024 x 768)

View Anywhere® Display Technology

• Intel Display Power Saving Technology (DPST)

System Memory

System Storage

• DDR2 533MHz SDRAM memory

Base configuration of 1GBUpgradeable to maximum 2GB

• 1.8" Hard Disk Drive (HDD) with 80GB capacity

Optional 64GB Solid State Drive (SSD)

• PCI bus master enhanced IDE

• Supports Ultra ATA 66/100

Communications

• WiFi® 802.11 a/b/g/draft-n

Integrated Bluetooth[®]

· Optional integrated mobile broadband

Dimensions

• 10.0" x 10.0" x .95" (256mm x 256mm x 24.3mm)

Weight

• 3.3 lbs.1

Battery

• Battery life approximately 3.75 hours²

· Lithium-ion standard battery with 40WHr capacity

¹Weight represents approximate system weight measured with a 40WHr battery. Actual system weight may vary depending on component and manufacturing variability. ²With SSD and GSB RAM. Battery life is dependent on actual wireless radio usage and power settlings.
