

RFID Technical Consulting – Additional Days of Service

Part Number: INS-RFID-ONAT

RFID Technical Consulting – Additional Days of Service provides additional days of RFID Technical Consulting, in one (1)-day increments, by a Motorola Advanced Services consultant. **NOTE:** this service is only available in conjunction with the purchase of Motorola's RFID Technical Consulting Service.

Motorola and Customer Responsibilities

This service, when selected by the customer, becomes part of Motorola's RFID Technical Consulting Service Description Document, and therefore the parties' respective rights, obligations and responsibilities, as well as the limitations and restrictions for this service, are all defined and governed by the terms of such documents, which are incorporated into this document as an integral part thereof, by way of this reference.

Limitations and Restrictions

1. This service must be ordered alongside the RFID Technical Consulting service, part number **INS-RFID-ONST**, and must be continuous with that service, completing the following calendar day. Each additional unit of this service begins and ends on the same calendar day.
2. This service, when selected by the customer, becomes part of Motorola's RFID Technical Consulting Service Description Document, and therefore the parties' respective rights, obligations and responsibilities, as well as the limitations and restrictions for this service, are all defined and governed by the terms of such documents, which are incorporated into this document as an integral part thereof, by way of this reference.
