

# PRODUCT SPECIFICATION

**DVRPTR16**

DOCUMENT NUMBER <b>DVRPTR16</b>	MODEL <b>DVRPTR16</b> 16 Port Video Surge Protection Panel Fits Standard 19" rack cabinet
REVISION NUMBER 022404	

**Description** \_\_\_\_\_

**16 Channel rack mounted surge protection panel.**

The **DVRPTR16** is designed to provide 16 channels of multistage surge protection. It is cost-effective and ideally suited for protecting multi-input video devices such as a DVR, multiplexer or matix system. The **DVRPTR16** is rack mountable in a standard 19" rack. It installs in minutes and provides a single easy access point for grounding. It uses 2.8 volt solid state clamping for unmatched protection.

**Features** \_\_\_\_\_

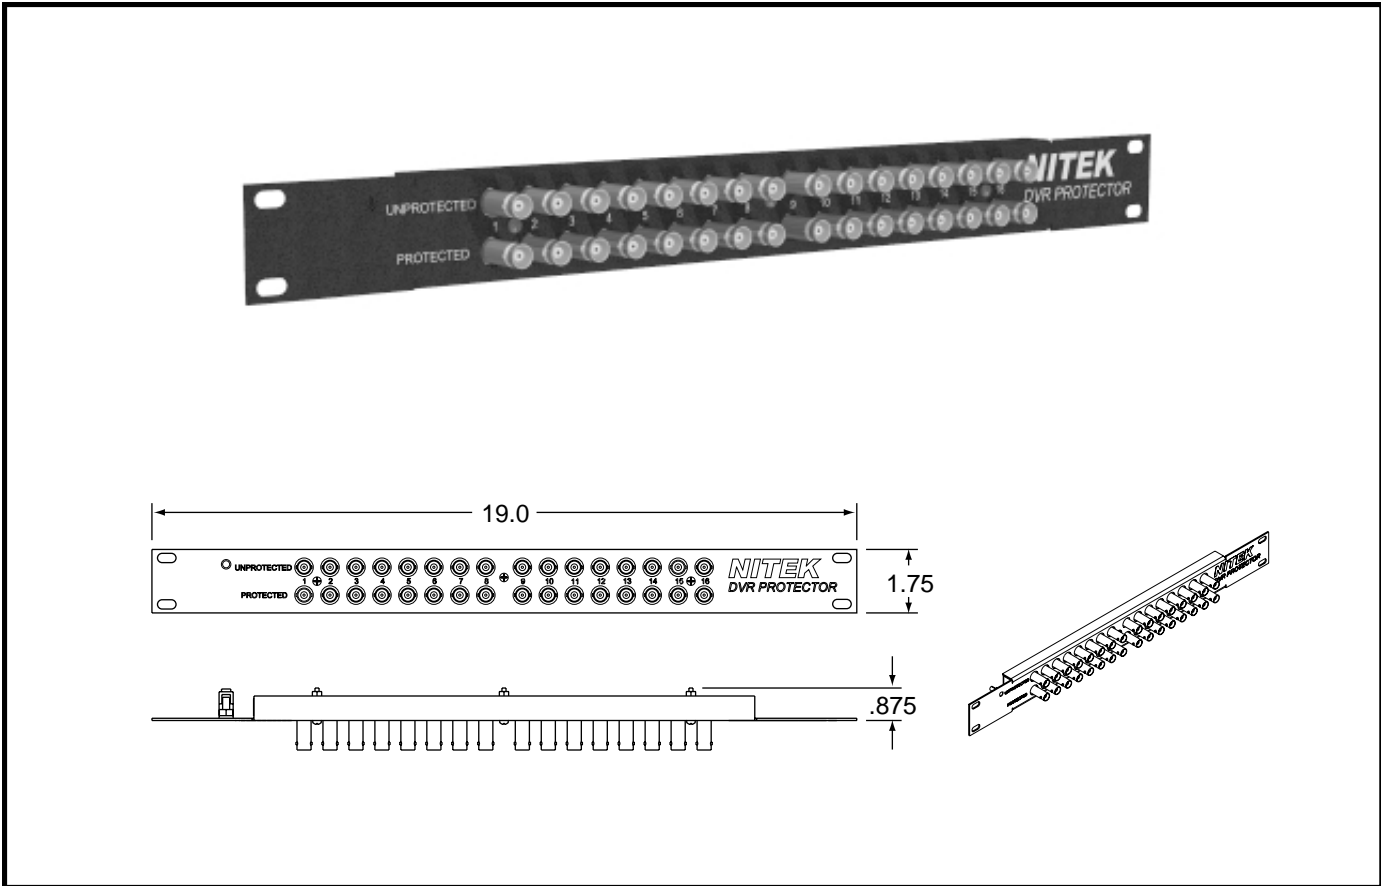

- Provides 16 channels of surge protection
- Multi-stage protection clamps to 2.8 volts
- Fits standard 19" rack cabinets
- Easy to install

**Ordering Information** \_\_\_\_\_
