Powerful and brilliant displays worthy of your messages

DH-E 40"/48"/55" Commercial LED LCD Displays

Powerful ideas. Brilliant messaging. They're exactly what the powerful, brilliant Samsung DH-E Series communicate. With 1GHz quad-core processing, the Samsung DH-E Series can faithfully display your most demanding graphics. With 700-nit brightness, they'll get the message to audiences even in brightly lit areas. And with innovative cooling technologies, Samsung commercial displays are rated for demanding 24/7 applications, where reliability is crucial. Capable of either landscape or portrait orientation, the DH-E Series is slim, sleek and lightweight. And they're exceptional in restaurants, retail stores, public places, or wherever high performance, high reliability and high value are in demand.

SAMSUNG BUSINESS

Key Features

Reliable 24/7 Continuous Operation

Samsung DH-E Series commercial displays feature innovative cooling technologies, and are designed from the chassis up to deliver the highest quality images with exceptional reliability, even during 24/7 continuous operation.

High Definition with High 700-Nit Brightness

The DH-E Series delivers sharp, stunning images with 1920×1080 Full HD resolution. And with 700-nit brightness, they're visible even in brightly-lit environments.

Enhanced System-on-Chip Performance with Quad-Core CPU

Powered by a System-on-Chip semiconductor and 1GHz quad-core CPU, and featuring 8GB of storage, Samsung's SMART Signage Platform reduces TCO for digital signage deployments, providing savings in hardware, installation and operating costs.

Sleek Industrial Design with Thin Bezel

A sleek, stylish look features a 9.5mm bezel width (top and sides), with optional customizable bezel trim kits (white, matte black).

Ultra-Slim 2.0" Chassis

The stylishly thin chassis looks streamlined, helps simplify installation, and also meets ADA compliance requirements.

Built-In Wi-Fi and AllShare Cast

Easily share content from a mobile device. And with Wi-Fi control of content, you can eliminate LAN cables.

Optional Touch Overlay with PC-less Touch Support

Add an optional IR touch overlay accessory to enable up to 10 simultaneous touch points. PC-less touch support means you only need to add the touch overlay accessory to enable touch, and no PC or setback box is required.

MagicInfo S3 Digital Signage Software

The software allows you to create playlists, set playback schedules and publish content directly to the display. Most traditional file formats are supported, including RSS feed and live web pages.
