## Galaxy Watch4

# Crush your health and wellness goals

Crush workouts and all your health goals with Samsung Galaxy Watch4, the smartwatch that gets you. Push yourself to the next level with Auto Workout Tracking, Advanced Run Coaching, and Group Challenges.<sup>1</sup> Track heart and lung endurance with oxygen level monitoring.<sup>2</sup> Combining style and function, Galaxy Watch4 offers a number of fashionable bands to match your every mood. And all-day comfort keeps you looking great from the locker room to the conference room. Staying on top of your day on the go is a breeze with Google app integration and call- and text-notification connectivity. Galaxy Watch4 delivers everything you need to conquer your day, no matter where you are or what's on your plate.

### LTE connectivity

Run out the door, around town or for a workout without your phone or Wi-Fi, without missing a beat. Thanks to LTE connectivity,<sup>3</sup> all you need is your Galaxy Watch4 to make or take calls, track workouts, send texts and pull up a playlist anywhere, anytime.

### Advanced Sleep/Continuous SpO<sub>2</sub>

Wake up feeling refreshed and recharged every day with advanced sleep tracking. When you go to bed, the sleep tracker on your Galaxy Watch4 starts monitoring your sleep and SpO<sub>2</sub> levels continuously.<sup>4</sup> This info is combined with snoring assessments captured on your smartphone<sup>5</sup> to help you figure out how to improve your overall sleep quality.

### Extension of your phone

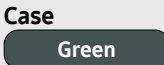

Galaxy Watch4 puts the phone features you need right on your wrist, so you can do the things you love on the go without pulling out your phone. Whether you're running, power-lunching or checking off your to-do list, you're connected to calls, texts, notifications and music streaming, all accessible with a simple tap.<sup>6</sup>

### Sleek and lightweight design

Look great while crushing your day with the sleek, lightweight and customizable Galaxy Watch4. Combining fashion and function, it's made to move with you while working out, and it matches your mood and your outfit with green, silver, pink and black bands, plus a variety of watch faces.<sup>7</sup>

<sup>1</sup>All participants must have the latest version of the Samsung Health app, downloadable via Galaxy Store and/or Google Play Store. <sup>2</sup>Accurate VO<sub>2</sub> max reading requires running outdoors for at least 20 minutes with GPS on. Consult user manual before use. VO<sub>2</sub> max software functions are not intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment or prevention of disease. <sup>3</sup>4G LTE stand-alone voice calling and stand-alone text messaging require initial pairing with an eligible Android 6.0 or later smartphone device and separate qualifying wireless plan. Your carrier may not support stand-alone voice calling, or support may be available only in certain areas. Please check with your carrier for more information. Stand-alone functionality limited if paired phone is not powered on or connected to a wireless network. <sup>4</sup>The SpO<sub>2</sub> measurement software is not intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment or prevention of disease. <sup>5</sup>The snoring measurement requires smartphone with Android 6.0 or later, 1.5GB of RAM, phone within 2 feet of user, with snore detection enabled through Samsung Health app version 6.18 or higher. <sup>6</sup>Compatible with select Bluetooth-capable smartphones running Android 6.0 or higher and RAM above 1.5GB. Galaxy Watch4 supported features may vary by carrier and compatible device. For a list of compatible smartphones and features, please visit [samsung.com/global/galaxy/galaxy-watch/devicecompatibility](https://samsung.com/global/galaxy/galaxy-watch/devicecompatibility). For best results, connect with compatible Samsung Galaxy smartphones. <sup>7</sup>Select interchangeable watch bands sold separately.
