

The next-generation wireless choice for voice-directed picking.

The B350-XT builds on the market-leading foundation of the B250 series of headsets. With the industry's best noise canceling and sound quality, the B350-XT ensures you can always hear and be heard, even in the noisiest warehouse environments. As a trusted voice-picking solution for Global Fortune® 500 Companies, the B350-XT is packed with advanced features, too, and it's sleeker, more rugged and compact than its predecessors.

Benefits

- Customizable Parrott Button™ can be set to your choice of mute, speed dial and more.
- Be heard clearly anywhere with the industry's best noise canceling (96%).
- Wideband HD voice and audio for great sound.
- Stream audio from any Bluetooth device.
- Simple one-touch pairing to your phone (NFC pairing).
- Use with two cell phones or a phone and mobile computer at the same time.
- Talk for 24 hours, and charge via micro USB.
- Durable, all-day comfort.

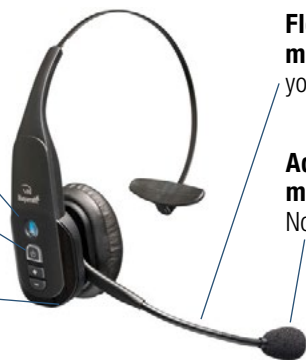

The B350-XT. Rugged, state-of-the-art, professional-grade Bluetooth.

Parrott Button™ can be programmed via PC or smartphone.

Multifunction button (MFB) controls on/off, call answer/end and pairing.

Micro-USB connection makes charging easy.

Flexible gooseneck mic boom stays where you put it.

Advanced noise-canceling microphone with Xtreme Noise Suppression™.

New Features

- Parrott Button can be set to the function of your choice, with VXi Updater software (PC), or the BlueParrott® App (iOS and Android).
- Near-field Communication (NFC) streamlines pairing for easy, fast connections.
- Headset Battery Reporting for iOS devices.

Standard Features

- A2DP support for streaming high-quality audio.
- Multipoint pairing for use with both a mobile computer and a Bluetooth-enabled cell phone.
- Xtreme Noise Suppression™ improves communication by cutting 96% of background noise.
- Wideband audio for clearer conversations, more productivity and increased safety.
- 128-bit data encryption keeps communications between the operator and the device secure.
- Flexible microphone boom stays where you put it for optimal sound quality.
- Lightweight comfort and real-world durability.

B350-XT Cushion Refresher Kit	203479	607972034790

Wideband Audio

By transmitting a wider spectrum of voice frequencies than traditional narrowband solutions, wideband audio delivers a higher quality of voice transmission. Because it's significantly easier to understand, wideband audio's clear, natural sound is ideal for speech recognition and voice-directed picking. When paired with a device that also supports wideband, the B350-XT ensures that you are heard—every time.
