1080p Wireless Presentation Gateway

No Wires, No Cables, Complete Connectivity

ViewSync WPG-370

The ViewSonic® ViewSync WPG-370 1080p wireless presentation gateway provides advanced wireless connectivity for projectors and displays. Certified with Intel® WiDi, the ViewSync™ WPG-370 offers 1080p wireless connectivity–allowing users to deliver HD content from a WiDi laptop to a projector or display. The ViewSync™ WPG-370 has multiple connectivity options, such as HDMI-out and VGA-out, for connecting to a projector or display. The ViewSync WPG-370 offers a user-friendly PC-less media streaming feature that works directly from a USB thumb drive without the need for a PC. In addition, the ViewSync WPG-370 is Wi-Fi® Miracast ready and works with a mobile app that enables content streaming from smart phones and tablets directly to the gateway. With 802.11a/b/g/n and WPA2/WPA encryption, the secure ViewSync WPG-370 is designed with business people in mind. The ViewSync WPG-370 is the perfect wireless presentation solution for projectors or displays.

WiDi Technology for Full HD 1080p Wireless

With the latest Intel WiDi technology, the ViewSync WPG-370 works seamlessly with WiDi laptops to deliver Full HD 1080p content, as well as digital 5.1 channel audio, over a wireless connection. Presenters can deliver engaging, high-def quality presentations without a physical HDMI cable.

Display Your Desktop with Mirror Feature*

With the ViewSync WPG-370, presenters can wirelessly connect their Windows or Mac desktops to any projector or display with an available HDMI and VGA output. Users can wirelessly play multimedia files, present office documents, and mirror the screen from the desktop directly to the projector or display.

Mobile App for SmartPhones & Tablets

Presenters can wirelessly connect their smartphones and tablets to any projector or display with the included mobile app. Content such as videos or photos can be streamed from Android or iOS devices directly to the projector or display. This offers a quick and simple presentation option for on-the-go presenters.

1080p Wireless Presentation Gateway

ViewSync WPG-370

Dual Band Wireless

The ViewSync WPG-370 offers 2.4GHz and 5GHz dual band wireless to ensure fast, smooth streaming without delays. Performance is streamlined by utilizing the 2.4GHz band for browsing and presentations, while the 5GHz band is used for high-def multimedia content. With the latest WPA2/WPA wireless encryption, the security of the ViewSync WPG-370 is designed for business and commercial environments.

Full Networking Capability

Equipped with LAN port, the ViewSync WPG-370 offers full networking capability so that IT admin can remotely monitor and manage the device over the network. In addition, mobile users can connect to the ViewSync WPG-370 for wireless presentations while having internet connection.

PC-less Slideshows

Jump start your presentation without waiting for the PC to boot up. With a PC-less presentation feature, you can display videos or images directly from a USB flash drive.

HDMI Digital Connectivity with Full HD 1080p

HDMI delivers the highest picture and sound quality without degradation. Equipped with the latest HDMI, ViewSonic's ViewSync WPG-370 can output Full HD 1080p video and true digital audio. It's perfect for connecting to any HDMI-enabled displays such as projectors, large-format displays, and desktop monitors.

Type A USB Port (PC-Less Slideshows) · Power Button · DC Power In · SPDIF · Audio In/Out · HDMI · VGA · LAN · Mode Button

Specifications

KEY COMPONENT
