WPL205

BARCODE PRINTER

Big Business Tools. Small Business Attitude.

The WPL205 is Wasp's value-packed direct thermal barcode printer. It's ideal for creating product shipping labels or other barcode labels. Conveniently sized with a clamshell design that makes media loading a snap, this easy-to-use printer provides all you need in a desktop barcode printer.

Using a direct thermal printing process, barcode labels can be created that also include text and company logos. Direct thermal creates high quality labels that are ideal for immediate use (eg. package or product shipping label) or when a permanent barcode label is not required. The WPL205 prints at a quick 5 inches per second with labels up to 4.25" wide and has 2Mb of FLASH memory.
