

Newcastle PC Series Powered Industrial Carts

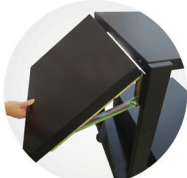

Get more done in more places with the heavy-duty cart that supports even the most power-thirsty devices

The PC Series cart is a versatile platform that not only provides the same flexible mobility as our lighter carts, but allows for expanded possibilities with room for a laser printer, supplies, inventory and more. With a 30" or 48" tabletop, it can actually serve as a mobile workspace that has plenty of room for your laptop and your paper-work too.

Perform tasks like inventory management, quality testing, inspection and labeling, pick & pack fulfillment and much more without unnecessary walking to static devices.

Specialized casters allow for precise and easy movements even at max capacity

Optional folding shelf accessory increases work surface

Available in 30" or 48" tabletop means greater configuration possibilities

Optional slide-out shelf can support a wide variety of equipment up to 60 lbs.

Enough space to pick, sort and pack on the fly

+ 63% increase in receiving volume

- 75% reduction in overtime

- 90% reduction in costly labeling errors

4-6 month ROI

Ideal for manufacturing, warehousing and logistics, retail or anywhere more efficiency is needed

Industry-leading power systems

Fixed or swappable, lead or lithium, no one offers more advanced power systems than Newcastle. All-day or 24x7 solutions that maximize efficiency, no matter your industry. See details on next page.

Industry-leading power systems

Whether you opt for SLA or lithium, you simply can't go wrong with the masterfully engineered power solutions by Newcastle. Each one is designed from the ground up to maximize productivity and value.

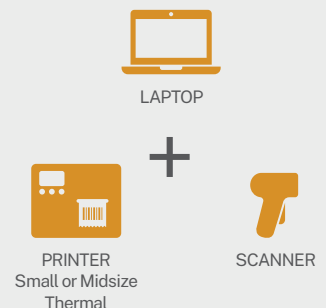

PowerSwap Nucleus® Classic Dual

Offers the power-to-weight benefits and extreme longevity of lithium iron phosphate technology. Once the battery is depleted, simply swap it with a fully charged one in seconds.

- Lightweight and powerful
- Hot-swappable for uninterrupted AC power
- Never lose a terminal session for a battery change
- Ideal for multiple shifts or 24/7 operation

TYPICAL USE CASE
(Powering devices 8+ hours)

Sealed Lead Acid (SLA)

The original power system designed to handle a full complement of hardware for 8-12 hours or more. At the end of the day, simply plug the cart in to be ready for the next day of work.

- Ideal for heavy-power draw equipment, including industrial laser printers and more

Fixed Lithium

Our first lithium system capable of matching the capacity of our SLA batteries. This system boosts performance and improves mobility while cutting ownership costs.

- Connect it and forget it: 8-10 year battery life
- 1/3 the weight of SLA batteries
- Safe and stable lithium iron phosphate technology
