

Meet the next evolution in mobile computing:

Zebra's New MC9400

Upgrade and save with the GO Zebra Trade-in Program.

Elevate mobile computing with Zebra's brand-new MC9400 handheld computer. Designed to maximize productivity and efficiency, the MC9400 brings dependable computing to the most challenging environments along with:

Go beyond what's possible with the MC9400

- ✓ Run multiple applications at once with improved loading times.
- ✓ Track powered-down devices with optional BLE batteries.
- ✓ Simplify integration with backward compatibility to MC9300 accessories.
- ✓ Support video calls and tracking with high-resolution cameras.
- ✓ Target labels easily with a green aimer light that's 7 times more visible than red aimers.
- ✓ Customize your device with freezer-ready keypads and cellular options.
- ✓ Automate data capture with OCR Wedge.

Step into the next level of enterprise efficiency. Get up to \$250 cash back per device when you upgrade through the GO Zebra Trade-In Program. Simply start by...

1.

Purchasing your new MC9400

2.

Submitting a claim form

3.

Sending back legacy devices for recycling

Get an extra \$150 bonus reward when you trade in competitive products!
