IntelliTrack® data management software is designed to maintain inventory in a variety of business environments. This user-friendly inventory tracking system combines state-of-the-art bar code data collection on your portable data terminal, with a sophisticated Windows®-based inventory management program for your PC.

PSC’s IntelliTrack® suite of products offers a relational database to ensure data integrity, portable bar code reader integration to maximize data collection efficiency, and bar code label printing capabilities to improve data collection accuracy.

With four specialized modules, the IntelliTrack® product line is designed to custom fit your operation. Choose the module that works best for you – Inventory, Fixed Assets, StockRoom, or Check In/Out.

IntelliTrack® 4.0 was created using Microsoft® Access 2002. Each IntelliTrack® module contains the source code and, since Microsoft® Access is one of the most popular development tools, you can easily customize your IntelliTrack® module to meet your specific requirements.

PSC is a leader in providing businesses with data collection and inventory management tools designed to reduce costs and increase productivity.

Portable Data Collection

Each IntelliTrack® software module includes an integrated portable data collection application for the PSC Falcon®, TopGun®, and PT 2000® portable data terminals. Portable data collection applications allow you to perform many of the same functions found in the IntelliTrack® application for your PC, such as physical inventories, moving and tracking items, issuing or receiving stock, and more.

Item Pictures: Each IntelliTrack® product allows you to store a picture with an item definition. This feature allows a user to verify an item visually. This is especially helpful, for example, when a user might be checking out an unusual tool, verifying an asset, or identifying kits.

Customization: While IntelliTrack® will meet most users’ requirements, situations may arise when you need to add features to IntelliTrack®. Since you receive the IntelliTrack® source code with each product, you can make customizations such as adding a new report or even adding new forms with special processing capabilities. For additional programming expertise, or just to save time, call PSC’s Professional Solutions Team.

Bar Code Printing: Integrated bar code printing allows you to label your inventory and locations quickly and easily based on the data contained in your IntelliTrack® application. Portable data terminal support and bar code label printing maximize data accuracy and efficiency when collecting inventory information.

Easy to Use: IntelliTrack® is a user-friendly Windows® application. Easy menu navigation allows you to quickly perform common inventory tasks.
**INVENTORY**

Ideal for small to mid-sized environments, the IntelliTrack® Inventory module effectively maintains your inventory with physical inventory and cycle counting capabilities. Powerful utilities, such as a move and edit feature, allow you to keep up with the demanding pace of a warehouse environment. Use the built-in reports and queries to monitor and manage your inventory.

IntelliTrack® Inventory comes with these standard reports:
- History by Date
- History by Item
- Inventory by Location
- Inventory Item Summary
- Overstock Summary
- Receiption

**STOCKROOM**

Manage consumable inventories with the IntelliTrack® StockRoom module. StockRoom allows you to issue and receive items to and from individual employees and departments, giving you the ability to track item usage and billing information. Use the powerful usage and billing reports to identify inventory trends, giving you better capabilities to manage your inventory.

IntelliTrack® StockRoom comes with these standard reports:
- History by Item
- Inventory by Location
- Inventory with Pictures
- Issue Transactions
- Inventory Item Summary

**FIXED ASSETS**

Use the IntelliTrack® Fixed Assets module to track and monitor the location of your company's fixed assets. IntelliTrack® Fixed Assets module also has the ability to maintain depreciation data for individual assets. Fixed Assets tells you not only where an asset is, but how much it is currently worth.

IntelliTrack® Fixed Assets comes with these standard reports:
- Move Transaction by Asset
- New Assets
- New Assets by Asset Number
- New Assets without Item Definition
- History by Item
- New Assets by Category

**CHECK IN/OUT**

The IntelliTrack® Check In/Out module manages material and equipment check-in and check-out transactions, and manages your consumable stock. Great for internal libraries, audio/video departments, tool cribs and document rooms. Check In/Out is a powerful tool to manage circulating inventories.

IntelliTrack® Check In/Out comes with these standard reports:
- Check In/Out - Check Out Details
- Check In/Out - Inventory Details
- Check In/Out - Inventory Summary
- Check In/Out - Inventory with Pictures
- Check In/Out - Inventory by Date

**SERVICE AND SUPPORT**

Your first call for IntelliTrack® technical support is free. You may use this call for multiple issues. Free technical support is for standard, non-customized IntelliTrack® software.

A one-year maintenance agreement is available and includes technical support, free maintenance releases, notification of major upgrades, and free upgrades for standard, non-customized IntelliTrack® software. The one-year maintenance agreements can be purchased directly from the PSC Customer Service Department or from your PSC distributor/reseller.

About BarcodesInc

Who We Are
BarcodesInc is North America's leading provider of specialized digital data hardware and software solutions. Our products include barcode scanners, mobile computing devices, identification card equipment, point-of-sale systems, barcode label and receipt printers, and consumables, all of which help customers improve productivity and profitability. Our product and solution experts have been serving both small businesses and large enterprises since 1994.

We Owe Our Success To You
It’s true that data tracking is our expertise - but customer satisfaction is our true passion. We have one overriding objective: focus on you, the customer. We understand that each customer’s need is unique. That’s why we listen carefully and tailor our solutions to meet your needs. We appreciate the opportunity to serve you and strive to exceed your expectations!

Why Choose BarcodesInc?

Dedicated Account Manager
Our Account Managers will not compromise when it comes to providing you top-notch service. Your Account Manager is the primary point of contact for your business and makes it a priority to get to know you, your company and all your needs.

Highly-Trained Technical Support
Our technical staff has the broadest knowledge and every significant certification in the industry. One of our friendly experts is always available to suggest products and solutions for any situation.

Incredible Value
Our purchasing power means big savings for you. Whatever your project, our team will work hard to deliver a solution that fits your budget.

Largest Inventory in the Industry and Same-Day Shipping
Whatever your barcoding, mobile computing, or printing needs, we will fill your order and ship it the same day.

Premier Access to Top Manufacturers
BarcodesInc maintains strong strategic partnerships with the leading manufacturers in barcoding, mobile computing, printing and RFID.

Responsive Customer Service
Every phone call and email is responded to promptly, completely and accurately by our customer service team.

Easy Returns
Damaged, defective or incorrectly ordered goods may be returned without hassle.
