

Create a Better, Safer Hospital for Patients and Professionals

Enhance hospital efficiency and patient experience with leading-edge solutions

With demand for healthcare surging as labor availability dwindles, hospitals are facing a huge challenge: delivering better care with fewer resources. How can it be done? The only way is through smarter technology that simplifies tasks and makes the most of every resource. Only Barcodes, Inc. offers the leading-edge technology that can help manage risks, meet targets, and improve efficiency while providing the software and services to back it up.

Reimagine your hospital

- Rapid self-service kiosks for patients
- Streamline admissions
- Manage rooms and medical carts
- Eliminate whiteboards and manual tracking of patients and procedures
- Track specimens and monitor lab testing
- Contactless and efficient telehealth

Running a better hospital starts with you, but it can't end there. Barcodes, Inc. delivers the top-tier services, software, and technology needed to support your hospital and everyone who depends on it.

Empower everyone in your hospital

Improving healthcare for everyone from new patients to experienced professionals
