

Make Productivity and Patient Safety a Priority

Empower hospital staff with leading-edge, life-saving solutions

With demand for healthcare surging as labor availability dwindles, hospitals are facing huge challenges to deliver better care with fewer resources. How can it be done? The only way is through smarter technology that makes the most of every resource. Only Barcodes, Inc. offers a complete network of cutting-edge, end-to-end solutions and services designed to help you manage risks, meet financial targets, and gain clear visibility across your entire inventory.

Reimagine your hospital

- Track high-value assets, medications and patients
- Streamline admissions workflows
- Secure staff communications
- Wristband and label printing on-the-go
- Control access to secure areas
- Gain universal mobile device management and support

Running a better hospital may start with you, but it doesn't end there. Barcodes, Inc. partners with the biggest names in tech and is proven to deliver the top-tier services needed to design, deploy, and support your healthcare organization whether on campus or in the field.

Barcodes: A Fully Managed Turnkey Solution

Master healthcare hurdles with tools that keep you steps ahead for years to come

Experience Barcodes EDGE

- **Deliver accuracy. Decrease liability**—make inventory management easy with RFID, enabling staff to track tools, high-value assets and medications
- **Print on demand**—print custom labels and wristbands at admissions, in the lab, and on-the-go
- **Speed up wait times**—augment staff with self-service kiosks, enabling patients to check in and print intake wristbands
- **Work with confidence**—gain instant access to professional IT support from end user services to device management and more
- **Ensure interconnectivity**—integrate all apps and devices on the same, secure wireless or mobile carrier network, onsite or in the field
- **Monitor campus activity**—use high-definition security cameras and access control readers to prevent theft and track high-value assets

Unlock full-service support

Design. Deploy. Support. As a global provider, our goal is to support you from concept to completion, and beyond. Barcodes, Inc. has aligned with an entire network of experts working in tandem to back you with tools that keep you competitive without sacrificing quality care or patient safety.

Solution Design/Implementation

Implement comprehensive project management, mobile technology support and onsite setup, installation and replacement of technology

Device Support and Management

Leverage secure and detailed staging, kitting and carrier activation, device management services, plus Overnight Spare Pool, Repair and Manufacturer RMA services to keep critical business running nonstop

Device-as-a-Service

Enable a predictable OPEX model by bundling innovative devices with a variety of services and software

End-User Services to Augment Staff

Ensure end-users remain up-to-speed with training solutions and 24x7 Help Desk support for hardware and software

Fast-track hospital workflows

Leverage the Barcodes EDGE to optimize workflows with smart devices and services tailor-made for your hospital environment. See for yourself how this powerful portfolio keeps your hospital high-functioning, patient-centric, and completely transparent.
